10 questions to ask Regenics before you pay

TRT Provider Guide · Last verified November 2, 2026

Copy these. Send them to Regenics. Decide after you read the answers.

1. What would my exact monthly testosterone price be for the plan my clinician recommends, and what could make that price change?
2. Which exact product would I get? Is it FDA-approved or compounded? What strength and vial size?
3. Which pharmacy would fill my TRT prescription, and where is that pharmacy licensed?
4. Are my first labs fully covered? Are follow-up labs (like hematocrit, PSA and estradiol) included, and how often are they done?
5. Do you prescribe testosterone in my state right now?
6. If I'm not a candidate for TRT, will my membership charge be refunded?
7. Will I see the same clinician every time? Who is the supervising physician?
8. How do you handle fertility if I may want children?
9. Which company is my treating medical provider, and how do I get copies of my records?
10. If treatment is stopped, what follow-up care and records access does your clinical team provide?
